### Welcome back!

The latest updates

We would like to warmly welcome our Primary 1 and Primary 2 students back to School.

Hope that all of you spent some quality time with your family during the year-end break.

Our Primary 1 students have begun their Primary School journey on 3 January, 2023. Fine weather greeted all staff, parents and students with smiles and excitement. School staff lined themselves around the school to welcome parents and students.

Parents were just as excited to know who their child's Form Teachers are. Primary One classes were soon bustling with delight and enthusiastic chattering.

This year, various department set up booth in the hall. Departments show case the activities and programmes the school has for our students in Concord Primary School. Parents visited the booths and has a better understanding of what the school has to offer.

Pictures captured on the 1<sup>st</sup> day of school for the Primary one.

### A New Beginning for Our Primary 1

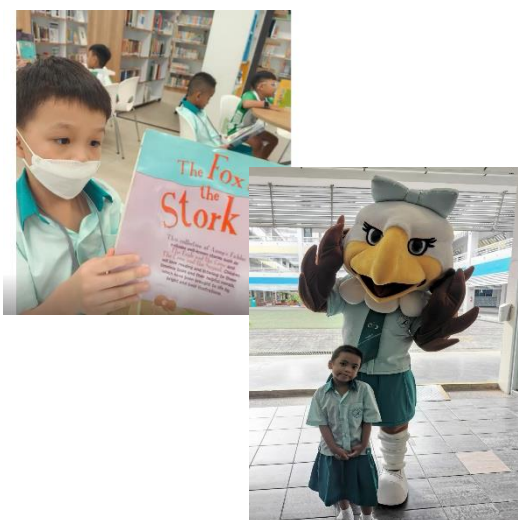

The latest updates to get you through the day

The following week was an engaging and discovery session for our Primary One students. Students were matched to their Primary Six buddies and they were brought around the canteen to learn about the different stalls and around the school. Primary Six buddies took care of their Primary One buddies well and even brought them to enjoy the Koi Pond and the surrounding vicinity.

To ensure a smooth transition from Kindergarten to Primary School, teachers planned a 3-week Transition Programme for all Primary One students. In class, students experienced fun activities to instill in them the love of learning.

The highlight of the Transition Programme was their first Show-and Tell session in class. Students shared candidly with their peers what they would like to be when they grow up. The session generated many happy laughter and smiles.

Though it has been only three weeks in school, our Primary One students have displayed confidence in their day-to-day routines. Students are eager to learn and teachers are happy to make learning fun for all.
