Students watching the assembly skit and engaging in the recess activities booth.

On 1st April 2024, our school commemorated International Friendship Day. The theme for this year is Singapore in Asia. During the assembly programme, our P6 student leaders delivered a captivating performance, featuring a presentation, skit and quiz, aimed at involving the school community in exploring the unique cultures and traditions of various ASEAN countries.

During recess, our wonderful parent volunteers managed the booths to allow our students to participate and be engaged in a range of activities, each unique to different ASEAN countries. Our students had an enriching and meaningful experience.

Math Playground @Concord

Breaking news

----- MDM JENNY CHUA

Students playing a variety of Mathematics games at the Math Playground.

Math Playground is now in full swing for Term 2 for our Primary 1 and Primary 2 students! During their recess time, students will have the opportunity to visit the Math Playground. Here, they can apply the skills they have been learning in class to solve real-life mathematics problems.

At Math Playground, students will engage in a variety of fun and interesting mathematics activities. They will play these games in pairs or groups, with each class having two designated Math Ambassadors to assist their peers during the games.

To set the scene, students will be seated around a hula hoop, within which all the game sets are neatly placed.

Excitingly, students will earn stamps on their Math Playground reward card every time they visit the corner. The aim is for students to collect as many stamps as possible. Once they have gathered 10 stamps, they can redeem a fantastic prize!

We are thrilled about Math Playground and hope all our students enjoy discovering that Mathematics can indeed be a blast!

April Babies Birthday Celebration!

Wishing all our April babies a Happy Birthday!
